

SABO IN THE LINE-UP OF INDUSTRIES MEETING IN BERLIN FOR SEPAWA® CONGRESS 2023

The leading manufacturer of speciality chemicals confirms its participation in the top international event dedicated to the cosmetics, detergents and fragrance industry.

Levate (Italy), 18th October 2023 - Increasingly global and focused on innovative trends in making new ingredients, SABO returns this year to the SEPAWA® CONGRESS in Berlin, the event that represents the main meeting point for the cosmetics, detergents and perfumery industry for the past 70 years. This year it is scheduled from 25th to 27th October 2023.

SABO will take part with a double stand (stand: C444–445) in the exhibition area of SEPAWA® CONGRESS at the Estrel Congress Center, Europe's largest conference centre, bringing know-how from the Personal Care and Industrial Surfactants divisions, in particular the latest solutions developed to meet specific industry requirements such as a natural origin index and high application performance.

“Our renewed participation in this historic event underlines the importance SABO attaches to dialogue and exchange with customers and international stakeholders, especially in the market of industries that is constantly looking for customised ingredients as well as quality, a focus that is at the heart of our corporate philosophy”, said **Germano Peverelli, CEO and Chairman of the Board of Directors of SABO S.p.A.**

SABO's presence at SEPAWA® CONGRESS is also part of an important investment plan that the company has been implementing in Germany over the last year, first by acquiring a production asset in Marl from the German multinational Evonik Industries AG and, recently, opening a distribution centre at Mäuler Logistik GmbH & Co. KG, in Duisburg, both in North Rhine-Westphalia.

These operations represent the centrality of the German region in SABO's international development geography, marking the company's development path in the year SEPAWA® CONGRESS celebrates its 70th anniversary.

Founded in 1937 in Levate, Italy, SABO is a leading chemical-industrial company specialised in the production of polymer additives, cosmetics ingredients, feed additives and several other technological products for industrial applications in different sectors.

Today, it ranks among the world's leading producers of high-quality HALS and is the largest Western company to offer polymer additives worldwide owned entirely by private capital.

SABO's Personal Care and Industrial Surfactants divisions offer, either directly or through distributors, a broad portfolio of innovative solutions to major international subcontractors and brands that select them for their premium products, thus satisfying formulation needs all over the world.

With over 80 years of experience, five production sites and more than 400 employees, SABO is known for its innovation, entrepreneurial spirit and historical, long-standing expertise.

With €254 million in revenues in 2022, the company confirmed the average growth trend of 15% over the last 10 years.

This development is part of SABO's expansion plan to become increasingly competitive among the major players in the sector, through the optimisation of the entire production chain, the widespread product distribution and the acquisition of new, patented, cutting-edge technologies. - www.sabo.com
